

## **Narula Public School, Mogra**

### **Training Sessions for the students and guardians**

**Dates: 18.11.2020-19.11.2020**

With an objective of upgrading the virtual teaching-learning practices of the students at Narula Public School, Mogra, which is functioning under the aegis of JIS Group Educational Initiatives, training sessions for the students and the guardians were organised on 18.11.2020 and 19.11.2020 in the ICT & Computer labs located in the school premises, keeping in view SOPs issued by the State govt in the wake of Covid 19.

The school prayer was followed by a short introduction on LMS by the school Principal. Subsequently, the teachers gave a PowerPoint presentation on LMS, followed by hands-on-practice in the computer lab. Later their feedback was collected and a user manual flowchart on logging into the school LMS was e-mailed to them for further practice and use at home.

Trial classes are in progress presently after which an administrative schedule will be given to all the stakeholders.

Thanks & regards
